

Create a polished responsive WordPress website on a subject of your choice using the provided theme. Remember that a responsive website should include a flexible layout and media queries that adjust your design as necessary. For the purposes of this assignment, your site's design should be optimized for desktop and mobile screen sizes.

Requirements

- At least four posts and pages total
- Flexible layout
- Designed for desktop and mobile screen sizes
- No pixels used except for media queries, calculations included as comments
- All sources cited
- Present for critique (3 points)

Grading
