

Overview

For this project, you will create a static site on a topic of your choice. Your site must have at least two pages, include at least one JavaScript or jQuery element, and use at least one concept from the Independent Project presentations.

Excellent	Good	Acceptable	Poor	Unacceptable
25 - 23	22 - 21	20 - 18	17 - 15	14 - 0
15 - 14	13	12 - 11	10 - 9	8 - 0
10	9	8 - 7	6	5 - 0

*Required Components***Content & Organization** *15 points*

Your site should include ample content organized in a helpful and considered way using at least two pages. Summarizing or quoting from other sources is acceptable provided you include a link to the original (same applies to images).

Note: If you are absent for the critique on Mon. 5/5, 5 points will be deducted from this component.

Layout & Design *15 points*

Your layout and design should compliment your content, provide clear organization, and make good use of typography, color, balance, and contrast. Your site should be polished and reflect a high level of attention to detail.

JavaScript/jQuery Element *10 points*

You must include one JavaScript or jQuery element that enhances the content and design of your site in some way. The element you include should be correctly implemented, useful, and appropriate to your topic and overall design. Make sure to include links to any resources used as comments in your code.

Independent Project Concept *10 points*

Your site must include one Independent Project concept (other than your own). The concept you choose should be correctly implemented, useful, and appropriate to your topic and overall design.

*Optional Components***JavaScript/jQuery Elements (1 or 2 extra)** *25 points each*

You may include 1 or 2 additional JavaScript or jQuery elements, each graded using the same criteria provided for the required element.

Independent Project Concepts (1 or 2 extra) *25 points each*

You may include 1 or 2 additional Independent Project concepts, including your own, each graded using the same criteria provided for the required element.

Responsive Design *25 points*

Your design may include a flexible layout and media queries to make your site responsive. Consider how your site looks and functions at all screen sizes, not just the sizes you specify in your media queries, and check that all your JavaScript and jQuery elements and Independent Project concepts function correctly.

Schedule

Mon. 4/21

Introduce Final Site

Wed. 4/23

Work Day

Mon. 4/28

Work Day

Wed. 4/30

Work Day

Final – Mon. 5/5 from 6-8pm

Final Site Critique

Site Due by 9am

Submission

Submit your project using the form available at web.cadavis.net/spring2014/submissions by 9am on Mon. 5/5.
